CANDLE MAKING KIT

manual

Welcome to the **Incraftables Candle Making Starter Kit!** This kit includes everything you need to create beautiful, fragrant candles at home. Follow this manual step-by-step to ensure the best results and enjoy the process of crafting your candles.

safety instructions

- Always work on a flat, stable surface.
- Use protective gear such as gloves and safety glasses.
- Keep children and pets away from your workspace.
- Never leave melted wax unattended.
- Be cautious with hot wax and surfaces to avoid burns.

kit contents

- Soy Wax: 300g
- Essential Oils: 2 bottles
- Jars with Lids: 2 sets
- Cotton Wicks: 20 pcs
- Stirring Sticks: 2 pcs
- Dried Flowers: 2 bags
- Gift Packing: 3 pcs
- Candle Making Pot & Bag

preparation

Before starting, gather all materials and set up your workspace. Ensure you have access to a heat source (like a stove) and a thermometer (optional but recommended).

step-by-step instructions

STEP 1 PREPARE YOUR WORK AREA

1. Cover your work surface with newspaper or a protective cloth.
2. Lay out all your materials within easy reach.
3. Have a pot or double boiler ready for melting the wax.

STEP 2 MELTING THE SOY WAX

1. Measure the desired amount of soy wax (150g per candle).
2. Place the soy wax into the candle making pot.
3. Heat the pot on low to medium heat, stirring occasionally with a stirring stick.
4. Monitor the temperature (ideal melting temperature for soy wax is around 170°F or 77°C)

STEP 3 ADDING ESSENTIAL OILS AND DRIED FLOWERS

1. Once the wax is melted, remove it from heat.
2. Add 10-15 drops of essential oil per 150g of wax, depending on the desired fragrance strength.
3. Stir gently to combine.
4. Optionally, add a small amount of dried flowers to the mixture.

STEP 4 SETTING UP THE WICK

1. Place a cotton wick in the center of each jar.
2. Use a drop of melted wax to secure the metal base of the wick to the bottom of the jar.
3. Ensure the wick is straight and centered (you can use a wick holder or a pencil to hold it in place).

STEP 5 POURING THE WAX

1. Carefully pour the melted wax into the jars, avoiding splashes.
2. Leave a small gap at the top of each jar (about 1/2 inch).

STEP 6 COOLING AND SETTING

1. Allow the candles to cool and set undisturbed for several hours (preferably overnight).
2. Check occasionally to ensure the wick stays centered.

STEP 7 TRIMMING THE WICK

1. Once the candles are fully set, trim the wick to about 1/4 inch above the wax surface.
2. Place the lids on the jars if desired.

decorating and packaging

- Use the gift packing provided to decorate your candles.
- Add personal touches such as labels or ribbons to make your candles unique gifts.

cleaning and storage

- Clean the candle making pot and stirring sticks with warm, soapy water.
- Store remaining materials in a cool, dry place for future use.

troubleshooting

- **Uneven Surface:** If the surface of your candle is uneven, you can use a heat gun or hair dryer to melt the top layer and allow it to reset.
- **Sinking Wick:** Ensure the wick is secured properly at the bottom before pouring the wax.

tips and tricks

- Experiment with different essential oil combinations to create custom scents.
- Use a thermometer to ensure optimal melting temperatures and avoid overheating the wax.
- For a more decorative look, arrange dried flowers at the bottom of the jar before pouring the wax.

ENJOY MAKING YOUR CANDLES WITH THE INCRAFTABLES CANDLE MAKING STARTER KIT!
