- **Stringing Material** – Elastic cord, wire, or thread suitable for beads.
- **Scissors** – To cut the stringing material.

STEP-BY-STEP INSTRUCTIONS:

1. Plan Your Design

- Lay out your emoji beads to decide on a design. Experiment with different emoji combinations for bracelets, necklaces, or keychains.

2. Prepare the Stringing Material

- Cut your stringing material to your desired length, adding a few extra inches for tying knots.

STEP-BY-STEP INSTRUCTIONS:

3. String the Beads

- Start stringing the beads in your preferred order. Use the jump rings as connectors between sections if desired.

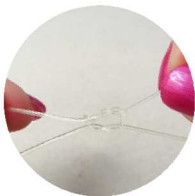

4. Add Clasps and Jump Rings

- Use the pliers to attach jump rings to the ends of the stringing material, then add clasps for an adjustable, secure fit.

STEP-BY-STEP INSTRUCTIONS:

5. Finish Up

- Tie secure knots, trim any excess string, and double-check that all clasps and rings are tightly closed.

TIPS FOR BEST RESULTS:

- **Use Elastic String for Bracelets**
 - Elastic makes it easier to wear and remove, especially for bracelets.
- **Pre-Test the Fit**
 - Check the size on your wrist, neck, or keychain attachment before adding clasps and jump rings.
- **Mix and Match Beads**
 - Combine emoji beads with other styles for a unique, layered look.
- **Secure Knots with Glue**
 - For extra durability, dab a tiny bit of jewelry glue on knots before trimming.

MOOD BRACELET STACK

Here are a few fun design suggestions for your **Incraftables Emoji Beads Kit**:

- Create a set of stackable bracelets representing different moods! Use a stretch cord and group beads by emotion themes, like "Happy," "Cool," and "Silly."
- Design each bracelet with a color theme to match the emoji expression (e.g., yellow beads for happy, blue beads for calm, etc.).
- Stack them for a layered effect or wear each separately depending on your mood.
