googly eyes

PRODUCT INSTRUCTIONS

The **Incraftables Googly Eyes** includes a wide range of wiggly eyes to bring life and personality to your craft projects. With 1680 pieces in various sizes, shapes, and styles, these googly eyes are perfect for adding fun, expressive touches to homemade cards, scrapbooks, school projects, decorations, and more. The eyes come in both circular and oval shapes, offering versatility and creativity for any type of craft.

WHAT'S INCLUDED:

- **1680 googly eyes in various sizes:**
 - Round: 4mm, 5mm, 6mm, 8mm, 10mm, 12mm, 15mm, 16mm, 18mm
 - Oval: Wiggly, with mixed sizes
- Each eye has a wiggly, moving design to create animated expressions.

TOOLS NEEDED:

- **Tweezers** (for easy handling of small pieces)
- **Glue** (clear-drying or hot glue gun, depending on the surface)
- **Optional: Scissors** (to trim or modify shapes as needed)

STEP-BY-STEP INSTRUCTIONS:

1. Select the Googly Eye Size & Shape

- Choose the best eye size and shape to match your project. Use smaller eyes for miniature crafts and larger eyes for more substantial items.

2. Apply Glue

- Place a small amount of glue on the back of the googly eye, being careful to avoid overuse, as excess glue can reduce the eye's movement.

STEP-BY-STEP INSTRUCTIONS:

3. Position the Eyes

- Use tweezers to position the eyes accurately on your project. Let the glue dry for a few minutes until secure.

4. Allow to Set

- If using hot glue, allow the eyes to cool and set firmly. Clear glue might take a little longer to dry completely.

TIPS FOR BEST RESULTS:

- **Experiment with Placement:** Try placing the eyes in unconventional areas to add humor and surprise to your projects.
- **Seal for Longevity:** If using on outdoor or heavily handled items, consider a sealant to keep the eyes firmly attached and weather-protected.
- **Keep Organized:** Use a small container or tray to keep the eyes organized by size while working, especially if multiple sizes are needed.
