

incraftables™

lava beads

PRODUCT INSTRUCTIONS

The **Incraftables Lava Beads** kit includes a variety of lava beads and spacer beads, perfect for jewelry-making, crafts, and DIY projects. The kit features a total of 600 lava beads in various sizes, along with 200 rondelle spacer beads and 33 feet of elastic string. Lava beads are known for their porous nature, allowing them to absorb essential oils, making them ideal for aromatherapy jewelry.

WHAT'S INCLUDED:

- **Lava Beads (Total Count: 600 pcs)**
 - Sizes:
 - 4mm: 200 pcs
 - 6mm: 200 pcs
 - 8mm: 200 pcs
- **Rondelle Spacer Beads** (Count: 200 pcs)
- **Elastic String** (Length: 33 ft)

TOOLS NEEDED:

- **Scissors:** For cutting the elastic string.
- **Beading Needle (optional):** Helps with threading the beads, especially smaller sizes.
- **Bead Mat or Tray:** Keeps your beads organized and prevents them from rolling away.
- **Crimp Beads (optional):** For securing the ends of the elastic string if desired.

STEP-BY-STEP INSTRUCTIONS:

1. Design Your Bracelet/Necklace

- Lay out your beads on a bead mat or tray to plan the design. Mix and match sizes and rondelle spacers as desired.

2. Cut the Elastic String

- Cut a length of elastic string that is about 1.5 times the desired length of your finished jewelry piece to allow for tying knots.

STEP-BY-STEP INSTRUCTIONS:

3. String the Beads

- Thread your beads onto the elastic string in the order you've planned. If using a beading needle, thread it through the needle first, then string the beads.

4. Secure the Ends

- Once all beads are strung, tie a secure knot at the ends of the elastic string. For extra security, you can double knot and use a drop of clear nail polish or glue on the knot.

STEP-BY-STEP INSTRUCTIONS:

5. Trim Excess String

- Carefully trim any excess elastic string close to the knot, ensuring it's secure and neat.

TIPS FOR BEST RESULTS:

- **Mix Sizes:** Experiment with different bead sizes for varied textures and visual interest.
- **Essential Oils:** Add a drop of your favorite essential oil to the lava beads for aromatherapy benefits. Allow it to absorb before wearing.
- **Bead Arrangement:** Use the rondelle spacer beads to create sections or highlight specific beads in your design.

TIPS FOR BEST RESULTS:

- **Stretch the Elastic:** Gently stretch the elastic string before use to ensure it doesn't become loose over time.
- **Color Coordination:** Consider the color of the lava beads and spacers for a harmonious design; using contrasting colors can also create a bold look.

CARE INSTRUCTIONS:

- **Cleaning:** Wipe beads with a damp cloth to remove dirt and oils. Avoid submerging in water.
- **Storage:** Store beads in a cool, dry place away from direct sunlight to prevent fading and damage.
