

# mosaic tiles

## PRODUCT INSTRUCTIONS

### **Materials you'll need:**

- **Multicolor Mosaic Tiles**
- **Adhesive Glue**

# STEP-BY-STEP GUIDE

## 1. Design your mosaic:

- Plan out your mosaic design to create a pattern. This will help you visualize how the tiles will fit together and what colors and shapes you'll need.

## 2. Prepare your surface:

- You'll need a surface to attach the mosaic tiles to. This can be a tabletop, a piece of wood, a concrete wall, or a mesh backing, depending on your project. Ensure that the surface is clean, dry, and smooth.

## 3. Select and prepare tiles:

- Choose the mosaic tile shapes and colors you want to use.

## 4. Arrange tiles:

- Lay out your mosaic tiles on the prepared surface according to your design.

## 5. Glue tiles:

- Once you're satisfied with the arrangement, start adhering the tiles to the surface using tile adhesive or mosaic glue. Apply a thin layer of adhesive to the back of each tile and press it firmly onto the surface. Continue this process until all tiles are in place.

## 6. Let it dry:

- Allow the adhesive to dry for the recommended time specified by the manufacturer. This typically takes at least 24 hours, but it may vary depending on the type of adhesive used and the size of your mosaic.

## 7. Enjoy your mosaic:

- Your mosaic is now complete and ready to be displayed or installed as desired.

remember that mosaic-making is an art form, so **FEEL FREE** to experiment with different tile shapes, colors, and designs to create unique and personalized pieces.
