pipe cleaners

PRODUCT INSTRUCTIONS

The **Incraftables Pipe Cleaners** (Chenille Stems) are versatile crafting supplies perfect for a variety of projects, including decorations, toys, and educational activities. Each pack contains a vibrant array of colors, allowing for creative expression and unique designs.

WHAT'S INCLUDED:

- **Total Pipe Cleaners:** 600 pieces
- **Colors Available:** 40 distinct colors
- **Stems per Color:** 15 pieces
- **Stem Size:** 6 mm (0.25 inch) in diameter and 300 mm (12 inches) long
- **Googly Eyes:** 74 pieces included for added fun and creativity

TOOLS NEEDED:

- **Scissors:** For cutting pipe cleaners to desired lengths.
- **Glue:** Optional, for attaching additional materials or securing parts of your project.
- **Markers or Paints:** For decorating or personalizing your creations.
- **Craft Wire:** Useful for adding stability or shaping.

STEP-BY-STEP INSTRUCTIONS:

1. Choose Your Colors

- Select the desired colors of pipe cleaners for your project. With 40 different colors, you can mix and match for endless combinations.

2. Cut to Size (if needed)

- Use scissors to cut the pipe cleaners to the desired length for your project.

STEP-BY-STEP INSTRUCTIONS:

3. **Bend and Shape**
   - Use your hands to bend and twist the pipe cleaners into shapes. They can be easily manipulated to form loops, curls, and other designs.

4. **Attach Googly Eyes**
   - Use glue to attach googly eyes to your creations, adding character and fun.

STEP-BY-STEP INSTRUCTIONS:

5. Combine with Other Materials
- Feel free to incorporate other craft materials, like beads, fabric, or paper, to enhance your project.

6. Display Your Creation
- Once completed, find a suitable place to display your craft or share it with friends and family.

TIPS FOR BEST RESULTS:

- **Experiment with Shapes:** Don't be afraid to try different techniques like twisting, braiding, or spiraling to create unique designs.

- **Layer Colors:** Combine multiple colors in one project for a more vibrant and dynamic look.

- **Create Structures:** Use several pipe cleaners to build three-dimensional objects, like animals, flowers, or abstract shapes.

- **Plan Your Project:** Sketch out your idea before starting to help visualize the final product and make the crafting process smoother.

- **Use a Wire Frame:** For larger projects, consider creating a wire frame to give stability to your design.
