

incraftables™

sewing thread

PRODUCT INSTRUCTIONS

The **Incraftables Sewing Thread Kit** is the perfect solution for all your sewing needs.

With a total of 24 spools of high-quality sewing thread, this kit provides a wide range of colors to match any project. Each spool contains 120 yards of durable thread, ensuring that you have enough length for various applications, whether you're sewing garments, quilting, or crafting. This kit also includes five sewing needles and five needle threaders, making it easy to get started right away.

WHAT'S INCLUDED:

- **Sewing Thread (24 pieces total)**
 - **Colors: 22 different vibrant colors**
 - **Size: 120 yards per spool**
- **Needles: 5 pieces**
 - **Needle Threaders: 5 pieces**

TOOLS NEEDED:

- Scissors (for cutting thread)
- A sewing machine or sewing needle (for hand sewing)
- Fabric or material of your choice
- Measuring tape or ruler (for precise measurements)

STEP-BY-STEP INSTRUCTIONS:

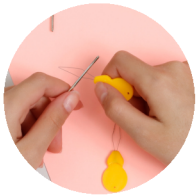

1. Set Up

- Select a spool of thread in your desired color. Each spool contains 120 yards, perfect for both hand sewing and machine sewing projects.

2. Threading the Needle

- Choose one of the provided needles.
- Use a needle threader if needed. Insert the wire loop of the threader through the needle's eye, place the thread through the loop, and pull it back through the needle.

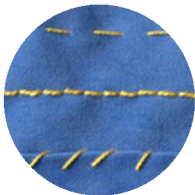

STEP-BY-STEP INSTRUCTIONS:

3. Securing Your Stitch

- Tie a small knot at the end of the thread to secure your stitch.
- For hand sewing, double-threading the needle (folding the thread in half) provides extra strength for seams.

4. Sewing Techniques

- Running Stitch: A basic stitch, ideal for simple seams or basting.
- Backstitch: Provides a sturdy hold, great for seams under stress.
- Whip Stitch: Best for hemming or finishing edges.

STEP-BY-STEP INSTRUCTIONS:

5. Finishing the Thread

- Once your stitch is complete, secure the end with a few small backstitches and trim the excess.

TIPS FOR BEST RESULTS:

- **Selecting Thread Color:** Match the thread color to your fabric for an invisible look, or pick contrasting colors for decorative stitching.
- **Avoiding Tangles:** Run the thread through beeswax or conditioner to reduce tangling.

TIPS FOR BEST RESULTS:

- **Thread Length:** Keep the thread under 18 inches for hand sewing to prevent knotting.
- **Needle Maintenance:** Swap needles if they become dull, as a sharper needle will give you cleaner stitches and avoid snagging.
- **Organizing Spools:** Use a thread organizer to keep the spools neat and avoid unraveling, preserving thread quality.
