

[illegible]

Incraftables Silver Word Charms are perfect for adding a personalized touch to your jewelry designs or craft projects. With 60 versatile silver word charms, these high-quality pieces can be used for bracelets, necklaces, keychains, or any creative endeavor that needs a unique flair. The charms feature a sleek design with a durable finish, ensuring they stand out while maintaining their luster over time.

WHAT'S INCLUDED:

- 60 Silver Word Charms
- Material: Durable metal with a silver finish
- Thickness: 2 mm (5/64 inch)
- Length: 21 mm (7/8 inch)
- Height: 8 mm (5/16 inch)
- Hole Size: 2 mm (5/64 inch)
- Clasps
- Quantity and style vary, suitable for securing your jewelry pieces.
- Rings
- Ideal for attaching charms and clasps to your designs.

TOOLS NEEDED:

- Jewelry Pliers: For opening and closing rings and clasps.
- Wire Cutters: To trim any excess wire or chain.
- Beading Mat: To keep your workspace organized and prevent beads from rolling away.
- Measuring Tape: To ensure proper sizing of your jewelry pieces.
- Tweezers: Helpful for handling small charms or components.

STEP-BY-STEP INSTRUCTIONS:

1. Prepare Your Materials

- Gather your silver word charms, clasps, rings, jewelry pliers, and desired chain or cord for your project.

2. Attach Rings to Charms

- Use jewelry pliers to open a ring gently. Thread it through the hole in the charm.
- Close the ring securely using the pliers, ensuring it won't slip off.

STEP-BY-STEP INSTRUCTIONS:

3. Connect Charms to Chains or Cord

- Attach the charm to your bracelet, necklace, or keychain by threading the ring through your chosen cord or chain link.
- For necklaces or bracelets, position charms where desired, adding multiple charms if you'd like.

4. Secure with Clasps

- Add a clasp to the ends of your necklace or bracelet if needed. Use rings to connect the clasp to your chain or cord.

TIPS FOR BEST RESULTS:

- **Design Planning:** Lay out your charms and beads beforehand to visualize the final look. Consider spacing charms evenly if using multiple.
- **Mixed Materials:** Combine charms with other materials, like silicone beads or gemstone beads, to create dynamic designs.
- **Use Quality Tools:** Jewelry pliers with a smooth grip (not serrated) prevent scratching the metal finish on your charms.
- **Layering:** Create layered bracelets or necklaces by mixing and matching word charms, offering a variety of messages or themes.
- **Charm Care:** To maintain the charm's silver finish, avoid exposing it to water or chemicals and store it in a dry place.
