

The background features a vibrant collage of colorful brushstrokes in shades of orange, blue, yellow, and purple. Several soap molds are scattered throughout: a blue mold with floral patterns in the top right, a pink mold with circular patterns in the bottom center, and a green mold with a grid pattern in the bottom left. There are also stylized orange flower icons and a yellow sun-like shape at the bottom right.

soap molds

PRODUCT INSTRUCTIONS

Incraftables Soap Molds are designed for soap making enthusiasts, providing you with the versatility to create beautiful, customized soap bars. Each set includes three assorted shapes, allowing you to explore your creativity while crafting unique soaps for personal use or as gifts.

WHAT'S INCLUDED:

- **3 Soap Molds:** Each mold features a unique shape and pattern for variety in your soap-making projects.

TOOLS NEEDED:

- Soap base (glycerin, shea butter, or goat milk)
- Essential oils or fragrance (optional)
- Colorants (optional)
- Mixing bowl and spatula
- Microwave-safe container (for melting)
- Alcohol spray (to reduce bubbles)

STEP-BY-STEP INSTRUCTIONS:

1. Prepare Soap Base

- Cut the soap base into small chunks for easy melting.

2. Melt Soap Base

- Place the chunks in a microwave-safe container. Heat in intervals of 20-30 seconds, stirring between intervals, until completely melted.

STEP-BY-STEP INSTRUCTIONS:

3. Add Fragrance and Color

- If desired, add essential oils and colorants. Stir well for even distribution.

4. Pour into Molds

- Carefully pour the melted soap base into each mold, filling it to the top.

STEP-BY-STEP INSTRUCTIONS:

5. Reduce Bubbles

- Spray a light mist of alcohol on the surface to eliminate any bubbles.

6. Let Set and Remove from Molds

- Allow the soap to cool and harden, typically for 2-3 hours.
- Gently press the back of each mold to release the soap without damage.

TIPS FOR BEST RESULTS:

- **Layering Technique:** Pour one layer, let it harden slightly, and pour another to create multi-colored or multi-textured bars.
- **Use Dried Flowers or Herbs:** Place these items in the mold before pouring in the soap for a beautiful, natural look.
- **Cleanup:** Silicone molds are easy to clean; simply rinse with warm water and mild soap after use. Avoid using harsh scrubbing tools that could damage the molds
