

incraftables™

spacer beads

PRODUCT INSTRUCTIONS

The **Incraftables Bead Set** is designed for crafting enthusiasts of all skill levels. This set includes a vibrant collection of 600 beads in two elegant colors—gold and silver. With various styles and additional components like elastic thread, clasps, and jump rings, you'll have everything you need to bring your creative visions to life.

WHAT'S INCLUDED:

- **Beads:** 600 pieces in total
- **Colors:** 2 (Gold & Silver)
- **Styles:** 12 (6 Gold & 6 Silver)
- **Elastic Thread:** Perfect for stringing beads and creating flexible designs.
- **Clasps:** 15 pieces for securing your creations and ensuring a polished finish.
- **Jump Rings:** 15 pieces to connect different components of your jewelry.
- **Organizer Box:** A convenient storage solution to keep your beads and tools neatly organized and easily accessible.

TOOLS NEEDED:

- Scissors (for cutting the elastic thread)
- Pliers (for working with clasps and jump rings)
- Measuring tape or ruler (to determine the desired length of your creations)
- Beading needle (optional, for easier threading of small beads)

STEP-BY-STEP INSTRUCTIONS:

1. Plan Your Design

- Before you start, sketch out your design or layout the beads in the organizer box to visualize the final piece.

2. Cut the Elastic Thread

- Measure and cut a length of elastic thread that is about 6-8 inches longer than your desired length.

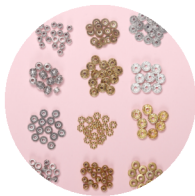

STEP-BY-STEP INSTRUCTIONS:

3. String the Beads

- Begin threading your chosen beads onto the elastic. If using a beading needle, thread the needle with the elastic for easier stringing.

4. Create a Pattern

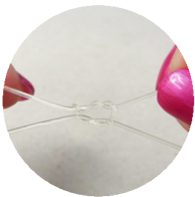

- Mix and match beads in various colors and styles to achieve your desired aesthetic.

STEP-BY-STEP INSTRUCTIONS:

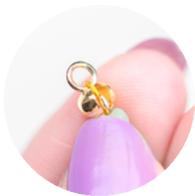

5. Secure the Ends

- Once all beads are threaded, tie a sturdy knot at the end of the elastic. You can use a double knot for extra security.

6. Attach Clasps and Jump Rings

- Use the pliers to attach clasps and jump rings, ensuring everything is securely fastened.

STEP-BY-STEP INSTRUCTIONS:

7. Trim Excess Thread

- After securing, trim any excess elastic thread, but leave enough to ensure the knot remains secure.

8. Store Leftover Materials

- Use the organizer box to keep any leftover beads and components for future projects.

TIPS FOR BEST RESULTS:

- **Mix and Match:** Don't hesitate to experiment with different bead styles and colors to create unique designs.
- **Practice Knotting:** If you're new to knotting, practice on scrap elastic or use an extra length of elastic to perfect your technique before working on your main piece.
- **Use a Beading Mat:** A beading mat can help keep your beads from rolling away while you work.
- **Pre-Plan Lengths:** Measure the wrist or neck circumference before cutting the elastic thread to avoid any sizing issues.
- **Store in a Cool, Dry Place:** To maintain the quality of your beads and materials, store them in a cool, dry environment.
